New York Stock Exchange.

New York, April 17.—Stocks while rather duli to-day were strong all day through, and while movements in the list were mostly confined to an insignificant proportion, a few stocks made large advances and the activity in them served to make a moderate day's business. The announcement of the intention to attempt to use the steamers of the Pacific Mail company, in connection with the Northern Pacific, despite the relations now existing between the Pacific Mail and Union Pacific, and a further reduction of rates by the Missouri Pacific, is regarded as evidence that the freight between the Rock Island, Missouri Pacific and Union Pacific will be even more botter than at present. The recommendation of the ways and means committee on the sugar tarif, made sugar reineries the principal feature, and buying on the impression that the new legislation will increase the consumption of sugar and so give employment to the late refineries was sufficient to send certificates up nearly 3 per cent, during the foremon. The market closed firm at about the best prices of the day.

Colonel Ferguson held that the evidence showed that the defendant had no intent to injure Sullivan and laid great stress in the absence of that element.

The jury remained out about five minutes and roturned with a verifiet of guilty, but recommended the derendant to the mercy of the court. Mack stated that he was ready for scutence, and Junge Zame said that he appeared to be a hardworking man and had born a good reputation. How's Your Liver?

Is the Oriental salutation knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.
